TSYLF NEWSLETTER

July 2020

Dear TSYLF Friends.

Our mission has always been to support career development in the hospitality industry by providing scholarships and grants. This spring, our response to the global pandemic was to extend our mission by creating a \$200,000 Hospitality Relief Grant Fund to provide \$500 relief grants to individuals financially impacted by COVID-19. And now as summer is here, we are beginning to see signs of the industry coming back. It may take a while to return to where we were before March 2020, but we will remain steadfast in our commitment to the industry.

Each year we look forward to honoring leaders in the hospitality industry at our annual Spirit of Hospitality Leadership Awards. It is the highlight of our year and we always look forward to this annual celebration. We could not hold these events without the support of many generous event sponsors and donors. However, to support the industry that also supports us, we have decided to postpone our annual Spirit of Hospitality Leadership Awards from October 2020 to Spring of 2021. By doing so, we

hope to give our greatest supporters more time to focus on their own businesses as the industry makes a slow but steady return.

Having experienced social distancing for several months now, I think for myself and for most of us, what we want is to get together and to reunite. As we reopen and recreate the world, we can count on this simple desire, as truth, that not just will things return to normal, but that we will do better to connect as members of the same society.

Sincerely,

Ellen
